Revision: 16.01.2024

### *Trade name:* **FERMITEX**

(Contd. fror	n page 1)
P280 Wear protective gloves / eye protection.	
P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. F	{inse
skin with water [or shower].	
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove of	contact
lenses, if present and easy to do. Continue rinsing.	
P310 Immediately call a POISON CENTER/doctor.	
P405 Store locked up.	
· Additional information:	
Packaging of whatever capacity that is delivered to the general public shall be fitted with a t	actile
warning of danger according to EN ISO 11683.	
Packaging supplied to the general public shall be fitted with child-resistant closures regardle	ess of
its capacity.	
· 2.3 Other hazards	
<ul> <li>Results of PBT and vPvB assessment</li> </ul>	
· <b>PBT:</b> Not applicable.	
· <b>vPvB:</b> Not applicable.	
Determination of endocrine-disrupting properties	
The product does not contain substances with endocrine disrupting properties.	
SECTION 3: Composition/information on ingredients	

### · 3.2 Mixtures

• Description: Chemical pipe cleaning agent of sodium hydroxide and aluminium grit.

### · Dangerous components:

_	5 1		
	CAS: 1310-73-2	sodium hydroxide	50 - 100%
	EINECS: 215-185-5	Met. Corr.1, H290; Skin Corr. 1A, H314	
	Index number: 011-002-00-6	Specific concentration limits:	
	Reg.nr.: 01-2119457892-27-X	Skin Corr. 1A; H314: C ≥5 %	
	-	Skin Corr. 1B; H314: 2 % ≤ C < 5 %	
		Skin Irrit. 2; H315: 0.5 % ≤ C < 2 %	
		Eye Irrit. 2; H319: 0.5 % ≤ C < 2 %	
	• Additional information For	the wording of the listed hazard phrases refer to section 1	6.

• Additional information For the wording of the listed hazard phrases refer to section 16.

# SECTION 4: First aid measures

· 4.1 Description of first aid measures

• General information Instantly remove any clothing contaminated by the product.

- · After inhalation Supply fresh air and call for doctor for safety reasons.
- · After skin contact

Instantly wash with water and soap and rinse thoroughly.

Immediate medical treatment necessary. Failure to treat burns can prevent wounds from healing. *After eye contact* 

Keep eye lids open and rinse them with ample amounts of clean running water for at least 15 minutes.

Call a doctor immediately.

· After swallowing

Drink copious amounts of water and provide fresh air. Instantly call for doctor. Avoid vomiting.

- 4.2 Most important symptoms and effects, both acute and delayed No further relevant information available.
- **4.3 Indication of any immediate medical attention and special treatment needed** No further relevant information available.

(Contd. on page 3)

Printing date 16.01.2024

Version number 6 (replaces version 5)

Revision: 16.01.2024

### Trade name: FERMITEX

(Contd. from page 2)

# **SECTION 5: Firefighting measures**

· 5.1 Extinguishing media

· Suitable extinguishing agents

The product itself does not burn.

Use fire fighting measures that suit the environment.

If place of fire permits, extinguish dry, if possible.

· For safety reasons unsuitable extinguishing agents Water.

• 5.2 Special hazards arising from the substance or mixture

Strongly alkaline solutions originate from the use of water for fire fighting.

- 5.3 Advice for firefighters
  - Protective equipment:

In case of fire wear breathing equipment being independent of ambient air and suit provided full protection against chemicals.

· Additional information Provide for sufficient reservoirs for water for fire fighting.

# SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures
Wear protective equipment. Keep unprotected persons away.
Avoid causing dust.
Avoid contact with the product.
Product forms slippery surface when combined with water.
 6.2 Environmental precautions: Do not allow to enter drainage system, surface or ground water.
 6.3 Methods and material for containment and cleaning up:
Collect mechanically and disposal in suitable containers.
Complete cleaning with water.

Absorb dryly, if possible, and avoid dust. Use lots of water to clean the place of the accident.

6.4 Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment.

See Section 13 for information on disposal.

# SECTION 7: Handling and storage

· 7.1 Precautions for safe handling Thorough dedusting. When diluting, always stir the product into standing water. Avoid contact with eyes and skin. Carry out filling operations only at sites with extractors available. · Information about protection against explosions and fires: No special measures required. · 7.2 Conditions for safe storage, including any incompatibilities · Storage · Requirements to be met by storerooms and containers: Provide alkali-resistant floor. Provide for wash facilities. Aluminium, lead, tin and zinc are inappropiate for the use as tank materials. · Information about storage in one common storage facility: Do not store together with acids. Avoid contact with ammonium salts. Further information about storage conditions: Keep container tightly sealed. This product is hyproscopic. Store at dry and cool places. At contact with humidity extremely flammable hydrogen gas can be formed.

Revision: 16.01.2024

## *Trade name:* **FERMITEX**

Printing date 16.01.2024

• 7.3 Specific end use(s) No further relevant information available.

(Contd. from page 3)

# SECTION 8: Exposure controls/personal protection

# · 8.1 Control parameters

- Components with limit values that require monitoring at the workplace: WEL: workplace exposure limit
- OEL: Occupational Exposure Limit

### 1310-73-2 sodium hydroxide

WEL (Great Britain) Short-term value: 2 mg/m<sup>3</sup>

# 7429-90-5 aluminium

WEL (Great Britain) Long-term value: 10\* 4\*\* mg/m<sup>3</sup>

\*inhalable dust \*\*respirable dust

### · DNELs

# 1310-73-2 sodium hydroxide

Inhalative DNEL (worker, long-term, local) 1 mg/m<sup>3</sup> (human)

DNEL (consumer, long-term, local) 1 mg/m<sup>3</sup> (human)

· Additional information: The lists that were valid during the compilation were used as basis.

### · 8.2 Exposure controls

Individual protection measures, such as personal protective equipment
 General protective and hygienic measures

Keep away from foodstuffs, beverages and food.

Take off all contaminated clothing immediately.

Wash hands during breaks and at the end of the work.

Avoid contact with the eyes and skin.

· Breathing equipment:

Approved dust respirators must be used for dusty conditions or if dust levels exceed established standards.

### · Hand protection

Alkaline resistant gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

### · Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

# · Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

- For the permanent contact gloves made of the following materials are suitable: Butyl rubber, BR
- Nitrile rubber, NBR

Eye/face protection

Tightly sealed safety glasses.

· Body protection: Alkaline resistant protective clothing

· Corrosive to metals · Desensitised explosives	Void Void

# SECTION 10: Stability and reactivity

· 10.1 Reactivity No further relevant information available.

(Contd. on page 6)

EU

Printing date 16.01.2024

Version number 6 (replaces version 5)

Revision: 16.01.2024

(Contd. from page 5)

# Trade name: FERMITEX

- 10.2 Chemical stability
   Thermal decomposition / conditions to be avoided:
- No decomposition if used according to specifications. • **10.3 Possibility of hazardous reactions**
- Strongly reacts with water, acids and base metals like aluminium, magnesium, zinc (development of hydrogen).
- 10.4 Conditions to avoid No further relevant information available.
- 10.5 Incompatible materials: No further relevant information available.
- · 10.6 Hazardous decomposition products:
- Inflammable gases/vapours Hydrogen

# **SECTION 11: Toxicological information**

• 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

- · Acute toxicity Based on available data, the classification criteria are not met.
- · Skin corrosion/irritation
- Causes severe skin burns and eye damage.
- Serious eye damage/irritation
- Causes serious eye damage.
- Respiratory or skin sensitisation Based on available data, the classification criteria are not met.
- Germ cell mutagenicity Based on available data, the classification criteria are not met.
- · Carcinogenicity Based on available data, the classification criteria are not met.
- · *Reproductive toxicity* Based on available data, the classification criteria are not met.
- · STOT-single exposure Based on available data, the classification criteria are not met.
- STOT-repeated exposure Based on available data, the classification criteria are not met.
- · Aspiration hazard Based on available data, the classification criteria are not met.
- · Other information (about experimental toxicology):

After the breathing in of fine vapours as they may e.g. be released during the solution, large-size injuries of the mucous membranes occur in the upper respiratory dusts. Mucous membranes and eyes may be affected by the formation of bubbles, ulceration and nebula which may result in blindness.

On the skin NaOH may result in serious destructions of tissue accompanied by heavy pain.

- 11.2 Information on other hazards
  - Endocrine disrupting properties

None of the ingredients is listed.

# SECTION 12: Ecological information

·	12.1	Toxicity
---	------	----------

· Aquatic toxicity:		
LC50	189 mg/l (fish)	
1310-73-2 sodium hydroxide		
EC50 (static)	145 mg/l/24h (Poecilia reticulata)	
EC50	40.4 mg/l/48h (Ceriodaphnia dubia)	
<ul> <li>12.2 Persistence and degradability No further relevant information available.</li> <li>Other information: The product is easily biodegradable.</li> <li>12.3 Bioaccumulative potential No further relevant information available.</li> </ul>		

• Other information Does not cause biological exploitation of oxygen.

- **12.4 Mobility in soil** No further relevant information available.
- 12.5 Results of PBT and vPvB assessment
  - · **PBT:** Not applicable.
  - **vPvB:** Not applicable.

	ocrine disrupting properties	(Contd. from page 6)				
		with endocrine disrupting properties.				
12.7 Other adverse effects Additional ecological information:						
				<ul> <li>General notes: Must not reach sewage water or drainage ditch undiluted or unneutralised. Rinse off of bigger amounts into drains or the aquatic environment may lead to increased pH- values. A high pH-value harms aquatic organisms. In the dilution of the use-level the pH-value is considerably reduced, so that after the use of the product the aqueous waste, emptied into</li> </ul>		
	drains, is only low water-dangerous. Do not allow undiluted product or large quantities of it to reach ground water, water bodies or					
sewage	system.
