. Additional information Ear th	a wording of the listed bazard phrases refer to section	16

Additional information For the wording of the listed hazard phrases refer to section 16.

SECTION 4: First aid measures

· 4.1 Description of first aid measures

· General information Instantly remove any clothing contaminated by the product.

· After inhalation

Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist.

In case of unconsciousness bring patient into stable side position for transport.

· After skin contact

Remove contaminated clothing immediately.

Wash intensively with water and soap. Use protective skin ointment.

Wash contaminated clothing before re-use.

· After eye contact

Keep eye lids open and rinse them with ample amounts of clean running water for at least 15 minutes.

Seek medical treatment.

• After swallowing Rinse out mouth.

Avoid vomiting. Don't give anything to drink. Immediately consult physician.

• 4.2 Most important symptoms and effects, both acute and delayed No further relevant information available.

• **4.3 Indication of any immediate medical attention and special treatment needed** No further relevant information available.

SECTION 5: Firefighting measures

· 5.1 Extinguishing media

· Suitable extinguishing agents

Extinguishing powder, foam or water jet. Fight larger fires with water jet or alcohol-resistant foam. • For safety reasons unsuitable extinguishing agents Water with a full water jet.

- 5.2 Special hazards arising from the substance or mixture
- Can be released in case of fire: Carbon monoxide (CO) Formation of flammable mixtures of vapours with air possible.
- 5.3 Advice for firefighters
- Protective equipment: Wear self-contained breathing apparatus.
- · Additional information Cool endangered containers with water spray.

SECTION 6: Accidental release measures

• 6.1 Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away.

(Contd. on page 4)

GB

Version number 5

Revision: 18.12.2019

Trade name: Fermitac Kleber

(Contd. from page 3) Keep away from sources of ignition and care for sufficient ventilation due to the content of organic
solvents.
Do not inhale vapours.
· 6.2 Environmental precautions:
Do not allow to enter drainage system, surface or ground water.
Inform respective authorities in case product reaches water or sewage system.
6.3 Methods and material for containment and cleaning up:
Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders).
Dispose of contaminated material as waste according to section 13.
Ensure adequate ventilation.
Do not flush with water or aqueous cleansing agents
• 6.4 Reference to other sections
See Section 7 for information on safe handling See Section 8 for information on personal protection equipment.
See Section 13 for information on disposal.
SECTION 7: Handling and storage
 Information about protection against explosions and fires: Keep ignition sources away - Do not smoke. Protect against electrostatic charges. Use explosion-proof apparatus / fittings and spark-proof tools. Vapours are heavier than air and may travel long distances along ground, ignite and flash back to source.
 7.2 Conditions for safe storage, including any incompatibilities Storage
· Requirements to be met by storerooms and containers:
Store cool and dry in well sealed containers.
Ensure sufficient ventilation.
Information about storage in one common storage facility:
Keep away from food, drink and animal feeding stuffs.
 Further information about storage conditions: Store in cool, dry conditions in well sealed containers.
• 7.3 Specific end use(s) No further relevant information available.
SECTION 8: Exposure controls/personal protection
· 8.1 Control parameters
• Components with limit values that require monitoring at the workplace:
WEL: workplace exposure limit
OEL: Occupational Exposure Limit

IOELV: Indicative Occupational Exposure Limit Values, workplace threshold value of the European Union

Revision: 18.12.2019

Trade name: Fermitac Kleber

(Contd. from page 5) · 8.2 Exposure controls · Personal protective equipment · General protective and hygienic measures Wash hands always after use. Keep away from foodstuffs, beverages and food. Take off all contaminated clothing immediately. Wash hands during breaks and at the end of the work. Avoid contact with the eyes and skin. Breathing equipment: Not necessary if room is well-ventilated. In case of brief exposure or low pollution use breathing filter apparatus. In case of intensive or longer exposure use breathing apparatus that is independent of circulating air. · Protection of hands: The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation There is no suitable material for protective gloves for this substance. The recommended protective glove has to be replaced often Material of gloves The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application. Penetration time of glove material The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed. Value for the permeation: Level = 2· For the permanent contact gloves made of the following materials are suitable: Butyl rubber, BR Eye protection: Tightly sealed safety glasses. **Body protection:** Wear antistatic clothing made from natural fibres (cotton) or heat-resistant synthetic fibres. SECTION 9: Physical and chemical properties 9.1 Information on basic physical and chemical properties al Infa

 General Information Appearance: Form: Colour: Odour: 	Viscous According to product specification Aromatic	
 Change in condition Melting point/freezing point: Initial boiling point and boiling ratio 	Not determined ange: > 35 °C	
· Flash point:	-10 °C	
· Ignition temperature:	420 °C	
		(Contd. on page 7)

Version number 5

Revision: 18.12.2019

Trade name: Fermitac Kleber

	(Contd. from page 6)
· Self-inflammability:	Product is not selfigniting.
· Explosive properties:	Product is not explosive. However, formation of explosive air/steam mixtures is possible.
 Critical values for explosion: Lower: Upper: 	1.3 Vol % 11.5 Vol %
· Vapour pressure at 20 °C:	110 - 175 hPa
· Density at 20 °C	< 1 g/cm ³
 Solubility in / Miscibility with Water: 	Insoluble
 Viscosity: dynamic at 20 °C: kinematic: 	3,000 - 75,000 mPas Not determined.
 Solvent content: Organic solvents: VOC EU 9.2 Other information 	737.0 g/l No further relevant information available.

SECTION 10: Stability and reactivity

- · 10.1 Reactivity No further relevant information available.
- 10.2 Chemical stability
- *Thermal decomposition / conditions to be avoided:* No decomposition if used according to specifications.
- 10.3 Possibility of hazardous reactions No dangerous reactions known
- 10.4 Conditions to avoid No further relevant information available.
- 10.5 Incompatible materials: No further relevant information available.
- 10.6 Hazardous decomposition products: None at intended use.

SECTION 11: Toxicological information

- · 11.1 Information on toxicological effects
- Acute toxicity Based on available data, the classification criteria are not met.

· LD/LC50 values that are relevant for classification:

78-93-3 butanone

Oral LD50 3,460 mg/kg (rat) (OECD 423)

Dermal LD50 5,000 mg/kg (rabbit)

Primary irritant effect:

· Skin corrosion/irritation

Longer or repeated contact with the product reduces the natural readipogenesis of the skin and results in the desiccation of the skin. That product can be absorbed via the skin. Causes skin irritation.

· Serious eye damage/irritation

Causes serious eye damage.

· Respiratory or skin sensitisation Based on available data, the classification criteria are not met.

- CMR effects (carcinogenity, mutagenicity and toxicity for reproduction)
- · Germ cell mutagenicity Based on available data, the classification criteria are not met.
- · Carcinogenicity Based on available data, the classification criteria are not met.
- · Reproductive toxicity Based on available data, the classification criteria are not met.

(Contd. on page 8)

_____ GB

Version number 5

Revision: 18.12.2019

Trade name: Fermitac Kleber

- · STOT-single exposure
- May cause drowsiness or dizziness.
- STOT-repeated exposure Based on available data, the classification criteria are not met.
- Aspiration hazard Based on available data, the classification criteria are not met.

SECTION 12: Ecological information

· 12.1 Toxicity

Aquatic toxicity:

78-93-3 butanone

EC50 (static) 308 mg/l/48h (Daphnia magna) (OECD 202)

- EC50 (static) 2,029 mg/l/96h (Pseudokirchneriella subcapitata) (OECD 201)
- LC50 (static) 2,993 mg/l/96h (Pimephales promelas) (OECD 203)
- 12.2 Persistence and degradability No further relevant information available.
- 12.3 Bioaccumulative potential No further relevant information available.
- 12.4 Mobility in soil No further relevant information available.
- · Additional ecological information:

· General notes:

Water hazard class 2 (German Regulation) (Self-assessment): hazardous for water. Do not allow product to reach ground water, water bodies or sewage system. Danger to drinking water if even small guantities leak into soil.

- 12.5 Results of PBT and vPvB assessment
- · **PBT:** Not applicable.
- **vPvB**: Not applicable.

• 12.6 Other adverse effects No further relevant information available.

SECTION 13: Disposal considerations

· 13.1 Waste treatment methods

· Recommendation

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

The waste code numbers mentioned are recommendations based on the probable use of the product.

· European	· European waste catalogue				
08 00 00	WASTES FROM THE MANUFACTURE, FORMULATION, SUPPLY AND USE (MFSU) OF COATINGS (PAINTS, VARNISHES AND VITREOUS ENAMELS), ADHESIVES, SEALANTS AND PRINTING INKS				
08 04 00	wastes from MFSU of adhesives and sealants (including waterproofing products)				
08 04 09*	waste adhesives and sealants containing organic solvents or other dangerous substances				

· Uncleaned packagings:

• *Recommendation:* Disposal must be made according to official regulations.

- · REGULATION (EC) No 1907/2006 ANNEX XVII Conditions of restriction: 3
- · National regulations
- · Water hazard class: Water hazard class 2 (Self-assessment): hazardous for water.
- · Substances of very high concern (SVHC) according to REACH, Article 57

None of the ingredients is contained.

· 15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

These data are based on our present knowledge. However, they shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

Relevant phrases

- H225 Highly flammable liquid and vapour.
- H226 Flammable liquid and vapour.
- H302 Harmful if swallowed.
- H304 May be fatal if swallowed and enters airways.
- H312 Harmful in contact with skin.
- H315 Causes skin irritation.
- H318 Causes serious eye damage.
- H319 Causes serious eye irritation.
- H332 Harmful if inhaled.
- H335 May cause respiratory irritation.
- H336 May cause drowsiness or dizziness.
- H373 May cause damage to organs through prolonged or repeated exposure.
- H412 Harmful to aquatic life with long lasting effects.
