

Technical data sheet

Chemical pipe cleaner

Eliminates blockages, unpleasant odours and dangerous bacteria in the drains from sinks, wash basins, water closet bowls and urinals simply, quickly and reliably.

Advantages & Features

- scentless
- automatic
- highly effective
- colorless
- takes effect quickly
- simple to apply
- does not attack metals (except aluminium, zinc and gold-plated fittings), glass or porcelain
- corrosive pipe cleaner use suitable protective agents

Application areas

Eliminates blockages, bad odors and dangerous bacteria in drains from sinks, washbasins, toilets and urinals easily, quickly and reliably. We recommend pouring 1/3 of the content down the drain for each application, avoiding backwater.

Tests and Approvals

./.

Use

Due to the chemical effects of FERMITEX, all organic foreign objects such as leftover food etc. are destroyed and washed away. Nevertheless,

FERMITEX does not attack metals (except for zinc and aluminium), porcelain, glass, etc. Plastic drainage pipes are not attacked by FERMITEX. Since some types of enamel can be dulled by FERMITEX, it is advisable in this case to ensure that the lye does not stand in the enamel for a long time. Regular use also prevents constipation and prevents odor build-up. The pipe cleaner is corrosive, so use suitable protective measures and ventilate the rooms.

Shelf life and storage

60 months shelf life when stored in a dry and dark place at normal humidity and room temperature

Order number, article and packaging units

Oder-no	Article	PU
12005	1l bottle	12

Notice

All information and recommendations contained in this technical data sheet do not represent guaranteed properties. They are based on our research results and experience. However, they are non-binding as we are not responsible for compliance with the processing conditions may be, since we do not know the special application conditions at the user. A guarantee can only be given for the consistently high quality of our products. We recommend that you conduct sufficient self-tests to determine whether the specified product has the properties you want. A claim from this is excluded. The processor bears sole responsibility for incorrect or inappropriate use.

Safety and health

Caustic drain cleaner (use appropriate preservatives). See safety data sheet.
