

PVC Universal Cleaner (125 ml/250 ml/ 1.000 ml)

Functionality

Cleaner used for cleaning elements made from U-PVC, soft PVC and ABS.

- Improves gluing by solubilising the moulding surface
- Suitable for use with pool fermit PVC Glue blue and pool fermit PVC GLUE PRO and all other adhesives for U-PVC and soft PVC

Technical Characteristics

Specifications	Characteristics
Appearance	Clear liquid
Colour	Colourless
Odour	Ketonic
Density at 20°C	0,8

Application

Preparation

Remove the gloss from the parts for assembly with the pool fermit Abrasive Paper

Instructions of use

Apply pool fermit PVC Universal Cleaner to both parts with a clean cloth. After cleaning, use pool fermit PVC glue or pool fermit PVC GLUE PRO immediately. For all other glues follow the instructions on the pack and/or the manufacturer's technical data sheet.

Storage

Keep at a temperature of between +5°C and +35°C. The expiry date on the packaging is for unopened product, store at 20°C in normal hygrometry conditions.

Safety Precautions

The Material Safety Data Sheet is available on the Internet on www.fermit.com

The information contained on the technical datasheet is provided in all good faith and results from measurements made in our laboratory. Given the number of materials, differences in quality and diversity of working methods, we recommend that users perform tests prior to application under actual conditions of use. This document may be amended in keeping with product development and the state of our knowledge without prior notice and therefore it is recommended to check that you have the latest version before use. The safety data sheet is available online at www.fermit.com
