

Abrasive Paper

Functionality

Abrasive cloth for deburring, cleaning, rust removal, polishing and chamfering of metals and plastics even in humid environments.

- Cleaning of pipes and connectors (copper, steel, PVC,...) before welding or gluing
- Deburring, sheet metal cleaning,...
- Deoxidation of metals, deburring, maintenance,...
- Very flexible cloth and easy to tear by hand to work on small diameters and reach the least accessible burrs.

Technical characteristics

Spezific	Characteristics
Grain	120
Nature of support	Cotton canvas
Nature of grain	Brown corundum (double-sided aluminium oxide)
1st gluing in contact with the support	Phenolic resin
2nd gluing	Phenolic resin
Use in humid environment	Yes
Tear by hand	Very easy
Dimensions	Grain 120 : 38mm x 1mm

Use

Instructions of use

- Tear by hand a piece of tape.
- Do the desired work.

Safety precautions

The Material Safety Data Sheet is available on the Internet on www.fermit.com

Storage

Store at a temperature between 0 °C and +40 °C. The expiry date on packaging is for unopened product stored at 20°C in normal hygrometry conditions.

The information contained on the technical datasheet is provided in all good faith and results from measurements made in our laboratory. Given the number of materials, differences in quality and diversity of working methods, we recommend that users perform tests prior to application under actual conditions of use. This document may be amended in keeping with product development and the state of our knowledge without prior notice and therefore it is recommended to check that you have the latest version before use. The safety data sheet is available online at www.fermit.com
